The decision of the returning officer shall in every case be endorsed by him on the nomination paper in respect of which such decision is given.

Elections.

XX. The returning officer may divide any general constituency into as many polling areas as he thinks fit, and shall appoint polling stations for such areas. He shall also appoint an officer, hereinafter referred to as the presiding officer, to preside at each such polling station.

XXI. The local Government shall appoint, and shall notify in such manner as it thinks fit, the date on which and the hours within which the votes in any constituency or class of constituency shall be recorded.

XXII. The presiding officer shall keep order at the polling station, shall see that the election is fairly conducted, shall regulate the number of electors to be admitted at one time, and shall exclude all other persons except his clerks, the candidates, or any agent whom any candidate may have appointed in writing to appear in his stead at the polling station, the police on duty, and such persons as may be admitted for the purpose of identifying the electors. The presiding officer shall close the polling station at the second hour appointed by the local Government

under regulation XXI, so as to prevent the admission thereto of any voter after that hour, but all voters present at the polling station before it is so closed shall be entitled to have their votes recorded.

XXIII. The returning officer shall provide for each presiding officer such number of clerks as he may consider desirable, and shall supply to him a copy of the electoral roll for his polling area, together with a list of the nominations and such other papers and forms as may be necessary.

XXIV. The ballot paper shall contain the names of the candidates arranged alphabetically in the order of their surnames, and if there are two or more candidates with the same surname, in the order of their other names. It shall be in the form set out in Form II annexed to these regulations, or as near thereto as circumstances admit, and shall be capable of being folded up.

XXV. The ballot box shall be so constructed that the ballot papers can be introduced therein but cannot be withdrawn therefrom without unlocking the box. Immediately before the commencement of the poll the presiding officer shall show the ballot box empty to such persons as may be present at the polling station, and shall then lock it up and place a seal upon it in such manner as to prevent its being opened without breaking such seal, and shall place it in his view for the receipt of ballot papers and keep it so locked and sealed.

XXVI. (1) When a person presents himself to vote, but not afterwards, the presiding officer, or any clerk appointed to check the voters by reference to the electoral rolls, may of his own accord and shall, if so required by a candidate or his agent, put to the person either or both of the following questions:—

(*a*) Are you the person enrolled as follows (reading the whole entry from the roll)?

(*b*) Have you already voted at the present election?

(2) The vote of the person required to answer either of these questions shall not be given until he has answered.

XXVII. Immediately before a ballot paper is delivered to an elector, it shall be marked by the presiding officer on both sides with the official mark, and the number, name, and description of the elector, as stated in the electoral roll, shall be called out. The number of such elector in the electoral roll shall be marked on the counterfoil of the ballot paper, and a mark shall be placed in the electoral roll against the number of the elector to denote that he has received a ballot paper, but without showing the particular ballot paper which he has received.

XXVIII. The elector on receiving the ballot paper shall forthwith proceed to the place set apart for the purpose, and there mark a cross against the name of the candidate or candidates for whom he intends to vote. He shall then fold the ballot paper so as to conceal his vote and shall put the ballot paper, so folded up, into the ballot box. He shall vote without undue delay, and shall quit the polling station as soon as he has put the ballot paper into the ballot box.

XXIX. If the voter is unable to read the ballot paper, or to make a cross thereon, the presiding officer shall mark the vote on a ballot-paper according to the direction of the voter. The voter shall then put the ballot paper folded up into the ballot box.

XXX. Any ballot paper which is not duly marked, or on which more than one cross is placed against any candidate's name, or on which votes

are given to more candidates than there are members to be elected, or on which a cross (or mark) is placed in such manner as to make it doubtful to which candidate it has been given, or on which any mark is made by which the voter may afterwards be identified, shall be invalid.

XXXI. If a person representing himself to be a particular elector named on the electoral roll applies for a ballot paper after another person has voted as such elector, the applicant shall, after duly answering such questions as the presiding officer may ask, be entitled to mark a ballot paper in the same manner as any other voter. Such ballot paper (called in these rules a "tendered ballot paper") shall be of a colour different from the other ballot papers, and, instead of being put into the ballot box, shall be given to the presiding officer and endorsed by him with the name of the voter and his number on the electoral roll, and set aside in a separate packet, and shall not be counted by the returning officer. The name of the voter and his number in the electoral roll shall be entered in a list in Form III annexed to these regulations, which shall bear the heading "Tendered votes list", and his thumb impression shall be taken against the entry in that list.

XXXII. If an objection to the right to vote of any person presenting himself to vote is made by any candidate, or his agent, on the ground of personation, the presiding officer shall decide on the validity of the objection. If the right to vote is allowed, the vote shall be recorded, provided that if the objecting candidate or his agent requires it, the presiding officer shall take the thumb impression of the voter on the back of the ballot paper before the vote is recorded. If the right to vote is disallowed the procedure in regulation XXXI shall be followed.

XXXIII. The presiding officer of each polling station, as soon as practicable after the close of the poll, shall, in the presence of the candidates, or their agents, make up into separate packets and seal with his own seal and the seal of such candidates or their agents as may desire to affix their seal—

(1) each ballot box in use at each station unopened, but with the key attached ;

(2) the unused ballot papers ;

(3) the tendered ballot papers ;

(4) the marked copies of the electoral roll ;

(5) the counterfoils of the ballot papers : and

(6) the tendered votes list.

XXXIV. The packets shall be forwarded by the presiding officer to the returning officer accompanied by a statement showing the number of ballot papers entrusted to him and accounting for them under the heads of "Ballot papers in the ballot box", "Tendered ballot papers," and "Unused ballot papers."

XXXV. (1) On the receipt of all the packets above referred to from all the polling stations, the returning officer shall appoint a date for the counting of votes, and shall give notice thereof to the candidates.

(2) On the day appointed the returning officer shall—

(*a*) open the ballot box, and after scrutiny separate the ballot papers which he deems valid from those which he rejects, endorsing on the latter the word "Rejected" and the ground of rejection ;

(*b*) count, or cause to be counted, the votes given to each candidate, and declare those candidates who have obtained the largest number of valid votes to be elected ;

(*c*) upon the completion of the counting—

(1) verify the ballot paper account given by each presiding officer under regulation XXXIV, by comparing it with the number of ballot papers found by him in the ballot box, the unused ballot papers, and the tendered votes list. The sealed packets of the tendered ballot papers, of the marked copies of the roll, and of the counterfoils of the ballot papers shall not be opened;

(2) seal up in separate packets the counted and rejected ballot papers, and reseal each sealed packet that has been opened, and record on each such packet a description of its contents, and the date of the election to which it refers;

(*d*) prepare and certify a return setting forth—

(1) the result of the verification referred to in the preceding clause,
(2) the names of the persons for whom valid votes were given,
(3) the number of valid votes given for each person,
(4) the names of the persons elected,
(5) the number of votes declared invalid, and
(6) the number of tendered votes given;

(*e*) permit any candidate, or his agent to take a copy of or an extract from the return.

XXXVI. The returning officer shall, after reporting the result, forward the return and the packets referred to to the Secretary to the Legislative Council.

XXXVII. While in the custody of the Secretary to the Legislative Council, the packets of ballot papers, whether counted, rejected, or tendered, and of the counterfoils thereof, shall not be opened, and their contents shall not be inspected, or produced, except under the orders of a competent court or of election Commissioners. All other documents in such custody shall be open to public inspection.

XXXVIII. The Secretary to the Legislative Council shall retain the packets for a year, and shall then, unless otherwise directed by the orders of an election Court, cause them to be destroyed.

Special Regulations applicable to University, and Commerce, and Industry constituencies.

XXXIX. In the case of an election for a University or Commerce and Industry constituency regulations XX, XXII, XXIII, XXIV, XXV, XXVI, XXVII, XXVIII, XXIX, XXX, XXXI, XXXII, XXXIII, XXXIV, and XXXV shall not be applicable, and the following regulations shall be substituted therefor and shall apply.

XL. On or before the date fixed in this behalf by the local Government the returning officer shall send by registered post to each elector a ballot paper together with an intimation of the date appointed by him for the counting of votes, and shall enter on the counterfoil of each ballot paper the name of the elector to whom the ballot paper is sent.

The ballot paper together with such intimation shall be sent to the address of the elector as shown in the electoral roll, or in the case of a commerce and industry constituency, to the latest known address of the elector as registered in the office of the Chamber, Association or Sabha comprising the constituency.

The form of the ballot paper, in the case of a commerce and industry constituency, shall be in Form IV annexed to these regulations, and, in the case of a University constituency, in Form V annexed to these regulations.

XLII. In the case of a University constituency an elector shall obtain the attestation of his signature, but not of his vote, by a magistrate, judge, subordinate judge, munsif, fellow of the University, or principal of a college affiliated to the University, to whom he is personally known, or to whose satisfaction he has been identified.

XLIII. Any elector may send his ballot paper to the returning officer after recording his vote thereon: provided that voting papers which are not received by the returning officer before the date fixed for the counting of the votes shall be rejected.

XLIV. Any ballot paper which is not duly marked, or on which more than one cross is placed against any candidate's name, or on which votes are given to more candidates than there are members to be elected, or on which a cross (or mark) is placed in such a manner as to make it doubtful to which candidate it has been given, or, in the case of a University constituency, on which the signature of the elector is not duly attested, shall be invalid

XLV. On the day appointed for the counting of the votes, the returning officer shall—

(*a*) after scrutiny separate the ballot papers which he deems valid from those which he rejects, endorsing on the latter the word "Rejected" and the ground of rejection

(*b*) count, or cause to be counted, the votes given to each candidate, and declare those candidates who have obtained the largest number of valid votes to be elected;

(*c*) upon the completion of the counting seal up in separate packets the counted and rejected ballot papers and prepare and certify a return setting forth—

(1) the names of the persons for whom valid votes were given;
(2) the number of valid votes given for each candidate;
(3) the names of the persons elected;
(4) the number of votes declared invalid;

(*d*) permit any candidate or his agent to take a copy of or an extract from the return.

XLVI. The local Government shall appoint and notify, in such manner as it thinks fit, the date referred to in regulation XL for sending ballot papers to electors.

Special Regulations applicable to Landholders' constituencies.

XLVII. In the case of an election for a landholders' constituency regulations XX, XXII, XXIII, XXIV, XXV, XXVI, XXVII, XXVIII, XXIX, XXX, XXXI, XXXII, XXXIII, XXXIV, and XXXV shall not be applicable, and the following regulations shall be substituted therefor, and shall apply.

XLVIII. On or before such date as may be appointed by the local Government in this behalf, the returning officer shall send by registered post to each elector a ballot paper in Form VI annexed to these regulations, together with an intimation of the date appointed by him for the counting of votes, and shall note on the counterfoil of each ballot paper the name of the elector to whom the ballot paper is sent. The ballot paper together with such intimation shall be sent to the address of the elector as shown in the electoral roll.

XLIX. On or before such date as may be appointed by the local Government in this behalf, but not later than 5 P.M. on that date, each elector desirous of recording his vote shall sign the declaration on the back of the ballot paper in the presence of an attesting officer, and the attesting officer shall thereupon attest his signature.

XLIX. The elector shall then proceed to a place set apart for that purpose by the attesting officer, and there shall record his vote on the ballot paper in accordance with the instructions therein, and after placing the ballot paper in an envelope, and closing the same, shall deliver it to the attesting officer.

L. If an elector is unable to read or write, or by reason of some physical defect is incapacitated from recording his vote, the attesting officer shall assist him in such manner as may be necessary to mark the ballot paper and to sign the declaration thereon.

LI. The attesting officer shall, at the close of the day appointed as the latest date for the attestation of ballot papers, despatch all the envelopes so delivered to him to the returning officer by registered post in a packet securely sealed with his official seal, and shall also enclose a list, in Form VII annexed to these regulations, of the electors whose ballot papers he has attested.

LII. A ballot paper that is not duly attested, or marked, or on which more than one cross is placed against any candidate's name or on which votes are given to more candidates than there are members to be elected or on which a cross (or mark) is placed in such a manner as to render it doubtful to which candidate it has been given, shall be invalid.

LIII. On the day appointed for the counting of votes, the returning officer shall fold the lower portion of every ballot paper along the dotted line on the back so as to conceal the names of the elector and of the attesting officer, and shall seal down the portion thus folded with his official seal, and thereafter shall—

(*a*) after scrutiny, separate the ballot papers which he deems valid from those which he rejects, endorsing on the latter the word "Rejected" and the ground of rejection;

(*b*) count, or cause to be counted, the votes given to each candidate, and declare the election of those candidates who have obtained the largest number of valid votes;

(*c*) upon the completion of the counting seal up in separate packets the counted and rejected ballot papers and prepare and certify a return setting forth—

(1) the names of the persons for whom the valid votes were given;

(2) the number of valid votes given for each candidate:

(3) the names of the persons elected;

(4) the number of votes declared invalid;

(*d*) permit any candidate or his agent to take a copy of or an extract from the return.

LIV. The local Government shall appoint and notify, in such manner as it thinks fit, the date referred to in regulation XLVII for sending ballot papers to electors, and the date referred to in regulation XLVIII for the attestation of ballot papers.

Special Regulations applicable to the Presidency and Burdwan (European) constituency.

LV. In the case of an election for the Presidency and Burdwan (European) constituency regulations XXVIII, XXX, and XXXV (2) shall not be applicable, and the following regulations shall be substituted therefor, and shall apply.

LVI. In the following regulations—

(1) the expression "continuing candidate" means any candidate not elected and not excluded from the poll;

(2) the expression "first preference" means the figure "1"; the expression "second preference" means the figure "2"; and the expression "third preference" means the figure "3", set opposite the name of any candidate, and so on;

(3) the expression "transferable paper" means a ballot paper on which a second or subsequent preference is recorded for a continuing candidate;

(4) the expression "non-transferable paper" means a ballot paper on which no second or subsequent preference is recorded for a continuing candidate:

Provided that a paper shall be deemed to be a non-transferable paper in any case in which—

(*a*) the names of two or more candidates (whether continuing or not) are marked with the same figure, and are next in order of preference; or

(*b*) the name of the candidate next in order of preference (whether continuing or not) is marked—

(*i*) by a figure not following consecutively after some other figure on the ballot paper; or

(*ii*) by two or more figures;

(5) the expression "original vote" in regard to any candidate means a vote derived from a ballot paper on which a first preference is recorded for that candidate;

(6) the expression "transferred vote" in regard to any candidate means a vote derived from a ballot paper on which a second or subsequent preference is recorded for that candidate;

(7) the expression "surplus" means the number of votes by which the total number of the votes original and transferred, credited to any candidate, exceeds the quota.

LVII. The ballot paper shall contain the names of the candidates arranged alphabetically in the order of their surnames, and if there are two or more candidates with the same surname, in the order of their other names. It shall be in the form set out in Form VIII annexed to these regulations.

LVIII. (1) Every elector shall have one vote only.

(2) An elector in giving his vote—

(*a*) must place on his ballot paper the figure 1 in the square opposite the name of the candidate for whom he votes;

(*b*) may in addition place on his ballot paper the figure 2 or the figures 2 and 3, or 2, 3 and 4, and so on, in the squares opposite the names of other candidates in the order of his preference.

LIX. A ballot paper shall be invalid on which—

(*a*) the figure 1 is not marked; or

(*b*) the figure 1 is set opposite the name of more than one candidate; or is so placed as to render it doubtful to which candidate it is intended to apply; or

(*c*) the figure 1 and some other figure are set opposite the name of the same candidate;

(*d*) any mark is made by which the voter may afterwards be identified.

LX. On the day appointed under regulation XXXV(1) for the counting of votes, the returning officer shall open the ballot-box, and, after scrutiny, separate the ballot papers which he deems valid from those which he rejects, endorsing on the latter the word "Rejected" and the ground of rejection, and after rejecting any that are invalid, shall arrange the remainder in parcels according to the first preferences recorded for each candidate.

LXI. The returning officer shall then count the number of papers in each parcel, and credit each candidate with one vote in respect of each valid paper on which a first preference has been recorded for him, and he shall ascertain the total number of valid papers.

LXII. The returning officer shall then divide the total number of valid papers by a number exceeding by one the number of vacancies to be filled, and the result increased by one, disregarding any fractional remainder, shall be the number of votes sufficient to secure the return of a candidate (hereinafter called the "quota").

LXIII. If at any time the number of votes credited to a candidate is equal to or greater than the quota, that candidate shall be declared elected.

LXIV. (1) If at any time the number of votes credited to a candidate is greater than the quota, the surplus shall be transferred in accordance with the provisions of this regulation to the continuing candidates indicated on the ballot papers in the parcel of the elected candidate as being next in order of the voters' preference.

(2) (*a*) If the votes credited to an elected candidate consist of original votes only, the returning officer shall examine all the papers in the parcel of the elected candidate whose surplus is to be transferred, and shall arrange the transferable papers in sub-parcels according to the next preferences recorded thereon.

(*b*) If the votes credited to an elected candidate consist of original and transferred votes, or of transferred votes only, the returning officer shall examine the papers contained in the sub-parcel last received by the elected candidate and shall arrange the transferable papers therein in further sub-parcels according to the next preferences recorded thereon.

(*c*) In either case the returning officer shall make a separate sub-parcel of the non-transferable papers and shall ascertain the number of papers in each sub-parcel of transferable papers and in the sub-parcel of non-transferable papers.

(3) If the total number of papers in the sub-parcels of transferable papers is equal to or less than the surplus the returning officer shall transfer each sub-parcel of transferable papers to the continuing candidate indicated thereon as the voters' next preference.

(4) (*a*) If the total number of transferable papers is greater than the surplus, the returning officer shall transfer from each sub-parcel the number of papers which bears the same proportion to the number of papers in the sub-parcel as the surplus bears to the total number of transferable papers.

(*b*) The number of papers to be transferred from each sub-parcel shall be ascertained by multiplying the number of papers in the sub-parcel by the surplus and dividing the result by the total number of transferable papers. A note shall be made of the fractional parts, if any, of each number so ascertained.

(*c*) If, owing to the existence of such fractional parts, the number of papers to be transferred is less than the surplus, so many of these fractional parts taken in the order of their magnitude, beginning with the largest as are necessary to make the total number of papers to be transferred equal to the surplus, shall be reckoned as of the value of unity, and the remaining fractional parts shall be ignored.

(*d*) The particular papers to be transferred from each sub-parcel shall be those last filed in the sub-parcel.

(*e*) Each paper transferred shall be marked in such a manner as to indicate the candidate from and to whom the transfer is made.

(5) (*a*) If more than one candidate has a surplus, the largest surplus shall be first dealt with.

(*b*) If two or more candidates have each the same surplus, regard shall be had to the number of original votes obtained by each candidate, and the surplus of the candidate credited with the largest number of original votes shall be first dealt with, and, if the numbers of the original votes are equal, the returning officer shall decide which surplus he will first deal with.

(*c*) The returning officer need not transfer the surplus of an elected candidate when that surplus together with any other surplus not transferred does not exceed the difference between the totals of the votes credited to the two continuing candidates lowest on the poll.

LXV. (1) If at any time no candidate has a surplus (or when under the preceding rule any existing surplus need not be transferred) and one or more vacancies remain unfilled the returning officer shall exclude from the poll the candidate credited with the lowest number of votes, and shall examine all the papers of that candidate, and shall arrange the transferable papers in sub-parcels according to the next preferences recorded thereon for continuing candidates and shall transfer each sub-parcel to the candidate for whom that preference is recorded.

(2) If the total of the votes of the two or more candidates lowest on the poll, together with any surplus votes not transferred, is less than the votes credited to the next highest candidate, the returning officer may in one operation exclude those candidates from the poll and transfer their votes in accordance with the preceding regulation.

(3) If, when a candidate has to be excluded under this regulation, two or more candidates have each the same number of votes and are lowest on the poll, regard shall be had to the number of original votes credited to each of those candidates, and the candidate with fewest original votes shall be excluded, and, where the numbers of the original votes are equal, regard shall be had to the total number of votes credited to those candidates at the first transfer at which they had an unequal number of votes, and the candidate with the lowest number of votes at that transfer shall be excluded, and, where the numbers of votes credited to those candidates were equal at all transfers, the returning officer shall decide which shall be excluded.

LXVI. (1) Whenever any transfer is made under any of the preceding regulations, each sub-parcel of papers transferred shall be added to the parcel, if any, of papers of the candidate to whom the transfer is made, and that candidate shall be credited with one vote in respect of each paper transferred. Such papers as are not transferred shall be set aside as finally dealt with, and the votes given thereon shall thenceforth not be taken into account.

(2) If after any transfer a candidate has a surplus, that surplus shall be dealt with in accordance with and subject to the provisions contained in regulation LXIV before any other candidate is excluded.

LXVII. (1) When the number of continuing candidates is reduced to the number of vacancies remaining unfilled, the continuing candidates shall be declared elected.

(2) When only one vacancy remains unfilled, and the votes of some one continuing candidate exceed the total of all the votes of the other continuing candidates, together with any surplus not transferred, that candidate shall be declared elected.

(3) When the last vacancies can be filled under this regulation, no further transfer of votes need be made.

LXVIII. Any candidate or his duly authorized representative in his absence may, at any time during the counting of the votes, either before the commencement or after the completion of any transfer of votes (whether surplus or otherwise), request the returning officer to re-examine and recount the papers of all or any candidates (not being papers set aside at any previous transfer as finally dealt with), and the returning officer shall forthwith re-examine and recount the same accordingly. The returning officer may also at his discretion recount votes either once or more often in any case in which he is not satisfied as to the accuracy of any previous count:

Provided that nothing herein shall make it obligatory on the returning officer to recount the same votes more than once.

LXIX. Upon the completion of the counting the returning officer shall—

(*a*) (*1*) verify the ballot paper account given by each presiding officer under regulation XXXIV, by comparing it with the number of ballot papers found by him in the ballot box, the unused ballot papers, and the tendered votes list. The sealed packets of the tendered ballot papers, of the marked copies of the roll, and of the counterfoils of the ballot papers shall not be opened;

(*2*) seal up in separate packets the counted and rejected ballot papers, and reseal each sealed packet that has been opened, and record on each such packet a description of its contents, and the date of the election to which it refers;

(*b*) prepare and certify a return setting forth—

(1) the result of the verification referred to in the preceding clause,

(2) the names of the persons elected, and the number of votes obtained by each,

(3) the number of votes declared invalid, and

(4) the number of tendered votes given;

(*c*) permit any candidate or his agent to take a copy of or an extract from the return.

GOVERNMENT OF BENGAL.

BENGAL LEGISLATIVE COUNCIL.

NOTIFICATION.

No. 1017L., dated Calcutta, the 6th August, 1920.—The following Report of the Select Committee, which was presented to the Bengal Legislative Council on the 4th August, 1920 (with the Bill as amended by the Committee), is hereby published for general information :—

REPORT OF THE SELECT COMMITTEE ON THE INDIAN RED CROSS SOCIETY (BENGAL BRANCH) BILL, 1920.

We, the undersigned Members of the Select Committee, to which the Bill to constitute a Bengal Provincial Branch of the Indian Red Cross Society was referred, have considered the Bill and have the honour to submit this, our Report, with the Bill as amended by us annexed hereto. In reprinting the Bill, all changes made by us have been underlined. The more important alterations are explained below :—

2. *Clause 4.*—We have considered it desirable to add a provision to this clause limiting the number of members of the Managing Body.

3. *New clause 5A.*—The rule making clause 8 of the Bill as introduced in Council has been transferred and placed before clause 6, following the arrangement of Act XV of 1920, as this appears to be more appropriate.

4. *Clause 6.*—We have revised this clause so as to make it follow more closely section 7 of Act XV of 1920, retaining the safeguard in regard to the purposes to which the funds of the Society may be applied. At the same time we deemed it desirable to add a provision enabling the Managing Body to apply all sums received by the Society for a specific purpose to that purpose.

5. We recommend that the Bill, as now amended by us, be passed.

* This member has added a note.

NOTE BY THE HON'BLE Mr. G. N. ROY.

I HAVE signed the report. I think, however, that I ought to add a note. It is not a note of dissent, but it merely points out that the Red Cross Society (Bengal Branch), which we are constituting under this Act, will in no sense be a Branch Society of the Indian Red Cross Society as formed by Act No. XV of 1920. The Branch Society contemplated in section 8 of that Act is to consist of the members of the Indian Red Cross Society. Our members are quite a different body and will be appointed in a different manner. It follows that the income of the property shown in the schedule of the India Act cannot be made over to the Indian Red Cross Society (Bengal Branch).

Of course there is no practical difficulty in our getting the money. Under section 9 of the India Act the managing body of the Indian Red Cross Society may affiliate to that Society our Society and allocate funds. Or, the difficulty could be got over if the members of our Society were accepted as members of the Indian Red Cross Society, and we may then become a Branch Society of the Indian Red Cross Society.

(as amended by the Select Committee).

The Indian Red Cross Society (Bengal Branch) Bill, 1920.

(*Clauses 7, 8.*)

(*1*) [*omitted as being reproduced in* (*a*).]
(*2*) the care of sick and wounded of His Majesty's Forces, whether still on the active list or demobilized;
(*3*) provision of comforts and assistance to members of His Majesty's Forces, whether on the active list or demobilized;

Paper No. 5.—Letter dated the 25th June, 1920, from the Honorary Secretary, Central National Muhammadan Association.

Clause 2.—We have added the words "and includes reformations *in situ*" after the definition of "alluvial land" in order to make the intention more clear. The definition of the "Collector" has also been slightly revised so as to include subdivisional officers who are responsible for the tranquillity of the subdivisions under their charge. The words "not below the rank of a Deputy Collector exercising the powers of a Magistrate of the first class" have been added after the words "any other officer" with a view to limiting the scope of this sub-clause.

Clause 3.—In sub-clause (*1*) the words "which in his opinion is recently formed" have been inserted after the words "alluvial land" as we consider it necessary to restrict the application of the Bill to such lands only. In this clause we have also provided that the Collector shall record in writing his grounds before attaching the land.

We have also considered it desirable to add a proviso in the interest of the owner of the land restricting the period of settlement to three years.

Sub-clause (*3*) has been slightly revised so as to make it clear that the application to the Collector must be made before the reference is made to the Civil Court.

Clause 4.—This clause has been redrafted. It provides that the survey made under this section shall be deemed to be a survey under the Bengal Survey Act, 1875, and requires the Collector to take action as soon as possible. We have also considered it desirable to make a provision declaring that a map prepared under this section shall be presumed by the Court to be accurate.

Clause 4A.—This new clause which reproduces sub-clauses (*2*) and (*3*) of clause 4 of the Bill as introduced in Council sets out more fully the procedure to be followed by the Civil Court in dealing with a reference. The reference is declared to be a suit for all the purposes of the Code of Civil Procedure, 1908, and it has been made clear that the decree is subject to appeal. It has also been provided that the costs incurred by the Collector under clauses 3 and 4(*1*) shall be at the discretion of the Civil Court.

Clause 5.—We have slightly revised this clause in order to give effect to the suggestion that the Collector shall put the person stated in the Court's order to be entitled to the land in possession thereof.

Clause 6 has been slightly modified with a view to carrying out the suggestion that only the costs which the Collector has incurred when a proceeding is cancelled should be recovered by him.

We recommend that the Bill, as amended by us, be passed.

STATEMENT OF OBJECTS AND REASONS.

In 1919 the Government of Bengal instituted inquiries regarding the constitutions of other Port Trusts in India, with the object of determining whether the existing constitution of the Calcutta Port Trust, according to which the Chairman's office is honorary and the salaried Vice-Chairman is the Chief Executive Officer of the Trust, should not now be modified and legislative provision made for the appointment of a full-time salaried Chairman. While this question was under examination the Chairman of the Port Commissioners, Calcutta, addressed Government on the same subject and urged that the time had arrived for bringing their constitution in this respect into line with the system of administration that prevails in other Ports in India. The Commissioners recommended that the Chief Executive Officer of the Trust should be a full-time salaried Chairman and should be appointed by Government in consultation with, or on the nomination of, the Port Commissioners. They further recommended that the law should be amended to provide for the appointment of a full-time salaried Deputy Chairman, who would relieve the Chairman of his less important function and preside over the meetings of the Commissioners in the absence of the Chairman. In making these proposals they were actuated by a desire to make provision for an administrative organization adequate for the efficient discharge of the growing business of the Port.

The above suggestions of the Port Commissioners have the approval of the Governor in Council. A draft Bill amending the Calcutta Port Act, 1890 (Ben. Act III of 1890) has accordingly been prepared to give effect to these suggestions

"	XXI	The Indian Defence Force (Foreign Service) Amendment Act, 1918.	The whole.
1919	VII	The Indian Defence Force (Amendment) Act, 1919.	The whole.

STATEMENT OF OBJECTS AND REASONS.

The replacement of the Indian Volunteer Force, which had been in existence for nearly 60 years, by the Indian Defence Force, was a war measure necessitated by the exigencies of the situation. Compulsory service was adopted to meet the needs of an Imperial emergency. Reversion to voluntary enrolment is now considered desirable, but it is essential to maintain and develop in the reconstituted Volunteer Force, the improvements in organization and in the standard of training effected under war conditions.

The necessity for a substantial amendment of the Indian Volunteers Act, 1869, had long been apparent. Under that enactment, no definite obligations were imposed on enrolled men in the matter of training, and the standard of efficiency varied widely in different units. It is now proposed to secure the requisite amendment by the substitution of a new measure, in which the liabilities of those enrolled in the matter of training and service are clearly defined.

The main principle underlying these provisions is that the European and domiciled community, being employed for the most part in the public services or in commercial and industrial occupations of importance, cannot be regarded as available for any but purely local service, and further that military training must be restricted as far as possible to the earlier years of service in the force Moreover conditions differ greatly in different localities and for this reason it has been found desirable to adjust requirements in the matter of training to the local conditions obtaining. This adjustment will be effected through the agency of Advisory Committees for every military area, power of varying the training in individual cases being entrusted to these bodies.

The liability to local service only is subject to the provision that, in circumstances of emergency to be notified formally by Government, any part of the force may be required to serve beyond the limits of the military area to which it belongs, but in no case out of India.

No term of service is specified, as was the case under the Indian Volunteers Act, 1869. Any enrolled person desirous of discharge during the first six years of his service will be required to satisfy the local Advisory Committee as to the validity of his reasons for desiring to leave the Force ; but after completing six years of service he may be discharged at any time on application being made to the Commanding Officer and no reference to higher authority will be required.

The scale of training laid down in the Bill is based on the principle already indicated. On attaining the age of 31, a member of the force is entitled to be passed into the First Class of the Reserve and thereupon to undergo training on a reduced scale. On attaining the age of 40, he will be included in the Second Class of the Reserve, and will then be required to complete the annual musketry course only. It is permissible, however, for any person in the Reserve to undertake, from year to year, the liabilities imposed on persons belonging to a higher class.

Members of the Force will be subject to the provisions of the Army Act when called out and when embodied, or when attached to or training with any part of the Regular Forces, this rule being the same as that applied to the Territorial Force in England. Military discipline on other occasions will be enforced either under the summary powers of the Commanding Officer, or, in the case of more serious offences and in any case should the person charged so elect, by means of the ordinary Criminal Courts. In no case can a Commanding Officer order any form of imprisonment as a summary or minor punishment, and no military offence (as specified in clause 24 of the Bill) is punishable with imprisonment by a Magistrate unless it constitutes an offence so punishable under the ordinary law.

DEPARTMENT OF AGRICULTURE, BENGAL.

First Forecast of the Cotton Crops of Bengal, 1920-21.

(NOTE.—On an average of the five years ending 1917-18, the area under the cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.)

There are two crops—early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the State of Hill Tippera and to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore. As the "late" crop has not yet been sown, this forecast deals only with the "early" crop.

Character of the season.—At the time the crop was sown, the weather was generally unfavourable. Drought in May and in the early part of June in the district of Midnapore and heavy rainfall during April in the State of Hill Tippera retarded generally the sowing and germination of the crop. Elsewhere the conditions were only fair. Subsequently since the latter part of June, moderate rainfall has improved the prospects, and the present condition is generally reported as fair.

Area sown.—The area sown with early cotton is reported to be 68,470 acres this year against 70,272 acres reported in the corresponding forecast of last year.

Of the late crop, no area is reported to have been sown up to date, against 303 acres in the corresponding forecast of last year.

REPORT ON THE ADMINISTRATION OF THE SALT DEPARTMENT IN BENGAL DURING THE YEAR 1919-20.

NOTIFICATION.

No. 2287 SR.—The 27th July 1920.—The following extracts from the Report of the Commissioner of Excise and Salt, Bengal, on the administration of the Salt Department in the Presidency of Bengal during the year 1919-20 are published for general information.

A. MARR,
Secy. to the Govt. of Bengal.

No. 2339 E., dated Calcutta, the 22nd June 1920.

From—S. C. MUKERJEE, ESQ., I.C.S., Commissioner of Excise and Salt, Bengal,

To—The Secretary to the Government of Bengal, Financial Dept.

I HAVE the honour to submit the following consolidated report on the administration of the Salt Department for the year 1919-20. The report deals with the preventive operations in the saliferous districts of the Presidency, which were under the control of the Commissioner of Excise and Salt, and with the importation and issues of salt under the control of the Customs authorities.

2. **Charge of the Department.**—I was in charge of the Department throughout the year.

CHAPTER I.

General.

3. **Credit system of payment of duty.**—The Collector of Customs, Calcutta, reports that securities to the extent of Rs. 76,33,025 were deposited during the year as compared with Rs. 72,83,000 in 1918-19. The amount of duty debited during the year under the system was Rs. 1,09,48,287 against Rs. 1,03,64,573 in the previous year. There were 59 depositors during the year against 50 in 1918-19, and none of them closed their accounts.

4. **Salt *golas* at Sulkea and Chittagong.**—During the year a portion of the foreshore bank at Sulkea was revetted and extensive repairs were carried out on some of the pontoons, which again gave considerable trouble during the period of strong tides. The administrative approval of Government was accorded to the erection of a new workshop, and the Collector of Customs hopes that the work will not be delayed. A start was made with replacing some of the old gear, purchases of which were suspended during the war; some new salt tubs were purchased and an indent was made on the Director-General of Stores, India Office, for some new steelyards and spare parts. There was no lack of storage accommodation at Chittagong during the year. A revised estimate amounting to Rs. 87,000 was submitted to Government for the removal of the Sadarghat *golas* to Moheshkhal, and it has been sanctioned by the Government of India. The work will be taken in hand as soon as funds are allotted by the Public Works Department.

5. **Consumption of duty-free salt for commercial purposes.**—The quantity of salt delivered free of duty for commercial purposes, or on which a drawback was subsequently allowed for the same reason, amounted to 7,918 maunds as compared with 6,880* maunds in 1918-19.

6. **Manufacture of salt in Bengal.**—As stated in paragraph 6 of last year's report, a license to manufacture salt at Samudrapur in the Contai subdivision of the Midnapore district was granted to a company in Calcutta. Necessary machinery has been set up, but owing to difficulty in obtaining supplies of fresh water in the locality, the company was unable to start manufacture during the year.

* Revised figures.

CHAPTER II.

Stocks, Imports and Clearances.

7. **Accounts of stocks and issues.**—The stocks, imports and clearances of salt in and from the ports of Calcutta and Chittagong for the years 1918-19 and 1919-20 are shown below :—

Stocks, imports, etc.	1918-19. Mds.	1919-20. Mds.
Total of all stocks at the commencement of the year	10,75,132*	13,84,159
Total quantity imported during the year.	1,02,08,506*	1,12,61,895
Excess found in the *golas* ...	698*	2,381
Total ...	1,12,84,336*	1,26,48,435
Quantity of duty-paid salt actually issued during the year ...	94,01,428*	1,08,11,746
Quantity which passed free of duty for the manufacture of glazed stoneware, etc.	6,880*	7,918
Quantity of non-duty-paid salt removed under bond to all inland ware-houses	3,66,273	3,78,670
Quantity written off during the year for wastage or otherwise ...	1,25,596	89,953
Total ...	99,00,177*	1,12,87,387
Balance at the close of the year ...	13,84,159*	13,61,048

* Revised figures.

Both the import and clearance figures show considerable increase.

8. **Imports.**— * * * * * * * * The total imports to Calcutta increased by 18·2 per cent. and those to Chittagong decreased by 49·5 per cent. There was a large increase in all qualities of salt imported to Calcutta with the exception of Port Said. Under war conditions, freight was more readily available at Port Said, but during the year under report other varieties of salt were able to obtain more tonnage. The Collector of Customs reports that imports from Spain might have been larger but for the labour troubles at Torrevieja. There were no imports to Chittagong from the United Kingdom except table salt in bottles. The revenue under the Persian Gulf salt is due to an excess quantity in ship's stores. The imports from Aden nearly doubled, the increase being by 2,12,382 maunds, while those from Port Said fell very largely from 9,65,463 maunds to 69,774 maunds only. A quantity of 81,866 maunds of Spanish salt was imported during the year against *nil* in the previous year. Two charter parties fell through owing to strike difficulties at Torrevieja. There was no direct import from Massowah except that of 15,000 maunds of non-duty-paid salt transferred from Calcutta.

Out of the total importation of 1,06,64,717 maunds into the port of Calcutta, 78,26,550 maunds or 73 per cent. were bonded in the Sulkea *golas* during the year as against a percentage of 81 in the previous year. The percentage was smaller owing to larger clearances from board ship during the year ; this decrease in the percentage continued from the previous year.

9. **Sales of imported salt from shipboard and bond.**— * * * * * * * * * *

In Calcutta the sales direct from shipboard show an increase by 68·6 per cent. and those from bond by 7·9 per cent. In Chittagong the sales direct

from shipboard and bond decreased by 32·7 per cent. and 14·5 per cent., respectively. The decrease was due to smaller importations owing to the merchants being unable to secure freight. The requirements of certain districts hitherto supplied from Chittagong were met from Calcutta. There was an increase of 14·5 per cent. in the total sales of imported salt. All the vessels carrying salt to Calcutta were steamers.

10. **Transactions in the *golas*.**—The total transactions at the *golas* in Calcutta and Chittagong for the past five years are given below :—

Year.	Calcutta.	Chittagong
	Mds.	Mds.
1915-16	1,55,57,771	17,35,807
1916-17	1,45,87,255	15,24,260
1917-18	1,36,05,327	13,64,536

12. **Inland bonded warehouses.**—There were 6 private bonded warehouses in this Presidency as compared with 8 in the previous year, viz., 2 at Narainganj (Dacca), 1 at Bhairab Bazar (Mymensingh), 1 at Madaripur (Faridpur) and 2 at Jhalakati (Bakarganj). Two *golas* at Chandpur (Tippera) remained closed during the year. The quantity of salt despatched to these 6 inland warehouses from shipboard and *golas* in the port of Calcutta was 2,96,270 maunds as compared with 3,47,073 maunds in 1918-19, showing a decrease by 14·6 per cent. There was an increase of 3,200 maunds or 16·6 per cent. in the quantity of salt despatched to the bonded warehouses in other provinces, the quantities despatched in the year being 8,000 maunds to Chandbally in Bihar and Orissa and 14,400 maunds to Ajmiriganj in Assam against *nil* and 19,200 maunds, respectively, in the previous year.

CHAPTER III.

Consumption and Prices.

15. **Consumption.**—The total quantity of salt, which passed into consumption in this Presidency during the year 1919-20, was 78,12,788* maunds. This is exclusive of 38,43,550* maunds, the net export by rail, road or river, but inclusive of 202 maunds educed from saltpetre and 7,918 maunds issued free of duty for commercial purposes.

16. **Prices of salt in Bengal generally.**— * * * * * * * * There was a decrease of 4 annas 8 pies in the average as compared with the previous year. It is reported that since April 1919 the prices ruling in the market were the maximum prices fixed by Government ; these were reduced from 1st January 1920 by Rs. 30 per 100 maunds. All through the year the prices of Kurkatch salt were 4 or 5 rupees below those of the crushed. The average wholesale price per 100 maunds of Liverpool salt was Rs. 172-2-5 against Rs 186-13-4 in the previous year.

* Exclusive of figures of import and export through the North-Western Railway for the quarter ending 31st March 1920, which the Director of Statistics has not been able to furnish on account of non-receipt of returns from that Railway owing to strike.

* * * * * * *

The maximum prices at which salt may be sold for delivery at the Sulkea and Chittagong salt *golas* are now fixed at the following rates per 100 maunds :—

	Ex-golas.	
	Sulkea.	Chittagong.
	Rs.	Rs.
Liverpool	158	168
Spanish	153	163
Port Said	150	160
Massowah	150	160
Aden, Fine	150	160
Indo-Aden	149	159

At the same time the maximum retail price of salt was fixed at 1 anna and 6 pies per seer in all places in the Presidency and Burdwan Divisions and 1 anna and 9 pies per seer in all places in the Dacca, Chittagong and Rajshahi Divisions except the Chittagong Hill Tracts, where the maximum retail price is fixed at 2 annas per seer, and the Sadar, Kalimpong and Kurseong subdivisions of the district of Darjeeling, where the maximum retail price is fixed at 2 annas and 3 pies per seer.

CHAPTER V.

Financial Results.

19. **Receipts and charges.**— * * * * * * * The receipts show an increase by Rs. 26,81,919 or 24·0 per cent. and the charges by Rs. 15,269 or 4·5 per cent. The net revenue was Rs. 1,35,07,486, which was larger than that of the previous year by Rs. 26,66,650 or 24·6 per cent. The increase in the receipts occurred mainly under head "Import duty on Salt." The charges do not include any share of cost of the Customs Preventive Service, which is largely employed in safeguarding the salt revenue. * * * * *

CHAPTER VI.

Miscellaneous.

20. **Saltpetre refineries and soda factories.**—There were five licensed saltpetre refineries at Manicktola, Sulkea, Kakurgachi, Bahirsura and Baranagar, respectively, during the year against three in the previous year. Two new refineries, viz., one at Bahirsura and one at Baranagar, were opened during the latter part of the year. No license was issued in 1919-20 for the manufacture of sulphate of soda.

The quantity of refined saltpetre produced during the year was 6,984 maunds against 11,701 maunds in the previous year. An explanation of the decrease last year was given in that year's report; the Collector of Excise, Calcutta, reports that the further decrease was due to the cessation of the war and to reduced demand for saltpetre in consequence. The quantity of salt educed in the process of refinement was 275 maunds as compared with 547 maunds in 1918-19 and the quantity of *sitta* (impure salt) left in the course of refinement was 126 maunds against 78 maunds in the previous year. Two hundred and two maunds of educed salt were sold during the year as compared with 568 maunds in 1918-19, the duty realized being Rs. 252-11 as compared with Rs. 710 in the previous year. The license fees realized from the saltpetre refineries amounted to Rs. 250 against Rs. 150 in the previous year.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 5th August 1920.

Summary.—Light to moderate rain fell generally throughout the province. More rain is required, especially in the northern districts, for the transplantation of winter paddy and for the steeping of jute. Elsewhere field operations are progressing satisfactorily. Some damage to jute by insect-pests is reported from Nadia, Murshidabad, Jessore and Pabna. The prospects of autumn paddy, sugarcane and other standing crops are generally hopeful. The average price of common rice for the province has fallen by about 0·23 per cent., as compared with that of the previous week.

THE VICTORIA CROSS.

GEORGE R.I.

WHEREAS Her late Majesty Queen Victoria, by a Warrant under Her Royal Sign Manual dated 29th January, 1856, did create a Naval and Military Decoration to be styled and designated " The Victoria Cross," and did express Her desire that this decoration should be highly prized and eagerly sought after by the Officers and Men of Her Naval and Military Services.

AND WHEREAS by divers subsequent Warrants other Officers and Men were admitted to and made eligible for the decoration, and certain amendments were made to the Rules and Ordinances attaching thereto.

AND WHEREAS We deem it expedient that the said Warrant and subsequent Warrants before referred to, as also the Rules and Ordinances affecting the same, shall be consolidated, varied and extended.

NOW, THEREFORE, We do hereby declare that the said Warrants, and the Rules and Ordinances heretofore in force for the Government of the said Decoration, shall for that purpose be amended, varied, modified and extended; and in substitution thereof We by these presents, for Us, Our Heirs and Successors, are graciously pleased to make, ordain and establish the following Rules and Ordinances for the Government of the same which shall from henceforth be inviolably observed and kept:—

Firstly, it is ordained that the distinction shall as heretofore be styled and designated " The Victoria Cross," and shall consist of a Maltese Cross of bronze with our Royal Crest in the centre and underneath it an escroll bearing this inscription: " For Valour."

Secondly, it is ordained that the Cross shall be suspended from the left breast by a red riband, and on those occasions when only the riband is worn a replica of the Cross in miniature shall be affixed to the centre of the riband.

Thirdly, it is ordained that the Cross shall only be awarded for most conspicuous bravery or some daring or pre-eminent act of valour or self-sacrifice or extreme devotion to duty in the presence of the enemy.

Fourthly, it is ordained that the Cross may be awarded posthumously.

Fifthly, it is ordained that the names of all those persons upon or on account of whom We may be pleased to confer or present the decoration shall be published in the *London Gazette*, and a Registry thereof kept in the Office of Our Secretary of State for War.

For every Bar awarded a replica of the Cross in miniature shall be added to the riband when worn alone.

Eighthly, it is ordained that every recommendation for the award of the decoration of the Cross shall be made and reported through the usual channel to the Senior Naval, Military or Air Force Officers Commanding the Force, who shall call for such description, conclusive proof, as far as the circumstances of the case will allow, and attestation of the act as he may think requisite, and if he approve he shall recommend the grant of the decoration to Our Lords Commissioners of the Admiralty, Our Secretary of State for War and the Royal Air Force as the case may be, who shall submit to Us the names of every one so recommended whom they shall consider worthy: in the case of there being no British or Indian Officer, then the Political Officer attached to the Force shall, after obtaining conclusive proof of the act of bravery as far as is possible, if he approve, submit the recommendation to Us through the proper channels.

Forecast of the Summer *til* crop of Bengal, 1920-21.

(NOTE.—On an average of the five years ending 1918-19, the area under *til* in Bengal has represented some 5·0 per cent. of the total area under *til* in British India.)

Character of the season.—The rainfall in February and March was sufficient for sowings, which began at the normal time. The long spell of drought, that followed in the months of April and May, adversely affected the growth of the crop in many districts. Subsequently the rainfall was generally moderate and beneficial. Some damage by drought is reported from parts of the 24-Parganas, Murshidabad, Midnapore and Mymensingh. On the whole the season was unfavourable for the crop.

Acreage.—The total area sown this year with the crop is reported to be 155,300 acres, as against 167,300 acres last year.

Outturn.—From the estimates furnished by the District Officers, the average outturn of the crop for the province works out at 77 per cent. of the normal this year, against 76 per cent. last year. Taking the normal yield at 6½ maunds per acre, the gross outturn for the province is estimated at 26,900 tons this year, against 28,600 tons last year, or a decrease of about 6 per cent.

DEPARTMENT OF AGRICULTURE, BENGAL.

First Forecast of the Sugarcane crop of Bengal 1920-21.

(NOTE.—On an average of the five years ending 1918-19, the area under sugarcane in Bengal has represented some 8 7 per cent. of the total area under sugarcane in British India.)

Character of the season.—In the Eastern Bengal districts the weather at planting time was generally favourable, but subsequently during the months of April and May, scarcity of rain affected the growth of the plants to some extent In Northern and Western Bengal, the planting time in most districts was generally from March to May, but conditions were not very favourable owing to drought and consequent lack of soil-moisture. During the last two months, however, moderate rainfall has improved the prospects of the crop throughout the Presidency and the present outlook is reported to be generally satisfactory.

Area planted.—The total area planted with sugarcane for the province is reported to be 216,900 acres this year, against 221,100 acres in the corresponding forecast of last year

CONSTITUTION OF A BOARD TO EXAMINE ALL IMPORTANT PROJECTS WHICH ARE LIKELY TO RESTRICT THE FREE FLOW OF FLOOD WATER.

GOVERNMENT OF BENGAL.

Irrigation Department.

RESOLUTION.

No. 3210 I.,

CALCUTTA, THE 7TH AUGUST 1920.

READ—

(1) Resolution No. 373 T-I., by the Government of Bengal, Irrigation Department, dated the 9th October 1916

(2) Press communique by the Irrigation Department, dated the 17th February 1917.

(3) Resolution No. 4133 I., by the Irrigation Department, dated the 9th September 1919.

BY Bengal Government notification No. 1360 T.-R., dated the 2nd November 1914. Major Hirst, Director of Surveys, Bengal and Assam. was placed on special duty to enquire into the condition of the Upper Hooghly and its feeders. On receipt of the report in June 1916 the Governor in Council decided to appoint a committee of practical men to advise Government upon the steps which should be taken to carry out systematic observations of the changes in these rivers and also, if possible, to improve their condition as navigable channels and as feeders for the Lower Hooghly. This committee was appointed in February 1917, and they submitted their report to Government in August 1919.

The recommendations of the committee are divided into three main heads, viz:—

(A) The preparation and co-ordination of records for the investigation of the progress of deterioration in the river Hooghly and its feeders,

(B) Practical measures for the conservation and improvement of the feeders of the river Hooghly, and

(C) Administrative control of the connected river system.

In connection with the latter the committee state that considering further the vital importance of the conservation of the deltaic rivers in the interests of drainage, irrigation, sanitation and transport, and the risk of deterioration to which they are exposed in the event of undue restriction of the spill areas of the feeder rivers of the Hooghly, they are of opinion that a Board should be constituted by the Government of Bengal to examine all important projects which are likely to restrict the free flow of flood water and report to Government before such projects are sanctioned.

The Governor in Council has been pleased to accept the recommendations of the committee and has now decided to appoint a permanent Board whose duty it will be to examine all important projects concerning either drainage, irrigation, sanitation or transport (by rail, road or waterways), which are likely to restrict the free flow of flood water, and report to Government in the department concerned before such projects are sanctioned.

The personnel of this committee will be constituted as below:—

President.

The Chief Engineer, Irrigation Department, Bengal.

Members.

A representative of the Sanitary Department.

A representative of the Agricultural Department.

A member to be nominated by the Bengal Chamber of Commerce.

A member to be nominated by the Managing Agents, India General Navigation and Railway Company, and the Agents of the Rivers Steam Navigation Company acting jointly.

The Under-Secretary to the Government of Bengal in the Irrigation Department will act as Secretary to the Board, and the records will be kept in the Bengal Secretariat. The Chief Engineer, Irrigation Department, will decide what schemes should be referred to the Board.

ORDER—Ordered that this Resolution be published in the *Calcutta Gazette* and that a copy thereof be submitted to the Government of India, Public Works Department, for information.

Ordered also that copies of the Resolution be forwarded to the Secretary, Railway Board, the Revenue, the Municipal and the Public Works (Railway) Departments of this Government, the Secretary, Bengal Chamber of Commerce, and the Managing Agents, Steamer Companies (India General Navigation and Railway Company and Rivers Steam Navigation Company), Calcutta, for information.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 12th August 1920.

Summary.—During the week rainfall was heavy in most districts of West Bengal; elsewhere it was generally light. Transplanting of winter paddy seedlings and cutting and steeping of jute are proceeding, but their progress is somewhat slow in Eastern and Northern Bengal for want of adequate rainfall. Reaping of autumn paddy continues and a satisfactory outturn is anticipated. Some damage to jute by insect-pests continues to be reported from parts of Nadia, Jessore and Pabna. Winter paddy and jute have also been slightly damaged by floods in Midnapore. The prospects of jute are fair and those of sugarcane and deep-water paddy are promising. The average price of common rice for the province has fallen by about 0;19 per cent. as compared with that of the previous week.

NOTIFICATION.

No. 303-R.

Simla, the 18th August 1920.

The following Royal Proclamation by His Imperial Majesty the King-Emperor, dated the 18th August 1920, is published for general information:—

BY

The King-Emperor

A ROYAL PROCLAMATION.

GEORGE V, by the Grace of God, of the United Kingdom of Great Britain and Ireland, and of the British Dominions beyond the Seas, King, Defender of the Faith, Emperor of India.—To MY Viceroy and Governor-General, to the Princes of Indian States, and to all My subjects in India, of whatsoever race or creed, GREETING.

In OUR message to you of December 23rd, 1919, WE assured you of our affection and good-will and of the deep interest with which WE welcomed the coming stage of political development in India. As a signal token of OUR interest and regard WE expressed OUR hope that OUR DEAR SON, the

PRINCE OF WALES, would visit India next winter and inaugurate on Our behalf both the reformed Legislatures and the Chamber of Princes. That hope unhappily cannot be realised. The unceasing and devoted labours of OUR SON in other parts of OUR EMPIRE have laid so heavy a burden upon his strength that it would not be possible for him at so early a date to undertake another protracted and arduous journey without assured danger to his health.

WE have accordingly decided that his visit to India must for the present be deferred. To this decision WE have come with grave reluctance and with a full appreciation of the disappointment which it will cause to the Princes and peoples of India; but WE are confident that they will share OUR anxiety to safeguard the health of OUR DEAR SON.

It is OUR full intention that the PRINCE OF WALES shall make himself personally acquainted with OUR Indian Empire, its loyal peoples, and its many interests; and we propose that, if he has by then recovered from the fatigues of his present labours, the visit now postponed shall be accomplished in the winter of next year.

Meanwhile, it remains OUR desire to mark in a special manner OUR sense of the momentous step which India is now taking towards greater constitutional freedom.

Although it has not pleased Providence that OUR DEAR SON should carry OUR GREETINGS on this occasion, WE shall send in his stead OUR UNCLE, HIS ROYAL HIGHNESS FIELD-MARSHAL THE DUKE OF CONNAUGHT to inaugurate on OUR behalf the Chamber of Princes, the Council of State and Indian Legislative Assembly, to take his part in other ceremonies which he would have performed, and to convey to the Princes and peoples of India the messages which it had been OUR hope to entrust to him.

By Order,

J. B. WOOD,

Political Secretary to the Government of India,
in the Foreign and Political Department.

WIRELESS METEOROLOGICAL INFORMATION TO AND FROM SHIPS AT SEA.

General Remarks.

No. 221 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1000 of 1920), are republished :—

Former Notice—No. 703 of 1920 (This Office No. 156 of 1920); hereby cancelled.

1. It is earnestly hoped that all concerned will assist in making the wireless meteorological service a success. Negotiations are now in hand to extend and unify the system of collecting weather data by wireless from ships at sea all over the world, and at the same time to organise the free transmission of weather bulletins from a sufficient number of wireless stations to admit of ships being constantly supplied with reliable weather reports and forecasts wherever they may be.

2. It should be borne in mind that the needs of ships at sea in regard to information regarding the weather will march hand in hand with the requirements of aircraft. The importance of this service will therefore be constantly increasing, and its success or failure will largely depend upon the co-operation of ships at sea in providing the data without which accurate forecasting is impossible. The matter does not depend solely upon the efforts of the ships selected to furnish the data. The essence of success lies in rapidity in passing such data by wireless from the ship to the coast station, and thence to the central meteorological office. It follows, therefore, that all ships not taking an active part in supplying data should use the greatest care not to interfere with the transmission of the wireless messages to the shore.

3. The following particulars refer to the scheme now being undertaken by the British Meteorological Office. This Notice will, however, be subject to revision from time to time, and endeavours will be made to include in each revision all information available to date of the weather bulletins issued by the wireless stations of the world. Earnest endeavours are being made to obtain international agreement as to the form of these weather bulletins and to the methods and times of transmission. It is hoped that the messages will eventually all be made in an international code at fixed times, so arranged that a ship with only one wireless operator will be able to read them. A similar scheme for time signals is being evolved.

Collection of Weather Data from Ships.

4. Certain ships are being asked to supply data regularly three times a day and in addition to the regular observations, which are taken at 0100, 0700 and 1300 Greenwich time and sent as soon as possible to Malin head (GMH) or Valentia (GCK) coast stations, these ships may, on request from either of these coast stations, send special data messages at other times.

5. Precise instructions as to the procedure for ships which intend to send a data message, together with the necessary code, will be issued at an early date.

Issue of Weather Bulletins to Ships.

6. A wireless *weather bulletin* may contain both or either of the following :—

(*a*) A *weather report*, which is an official statement of existing weather conditions; and/or

(*b*) A *weather forecast*, which is an official opinion of probable future weather conditions.

7. The accompanying schedule of wireless weather bulletins is intended to provide, in a form suitable to give all information required by the wireless operator, a complete and up-to-date list of all weather bulletins transmitted at fixed times by wireless stations throughout the world. The

same information will be found in detail in the Sailing Directions and in the International List of Radiotelegraph Stations (the Berne List).

8. The times given in the third column of the schedule are expressed in the 4-figure notation employed for signalling during the war. The term "G.M.T." here means the civil mean time of the meridian of Greenwich, with the day commencing at midnight and the hours reckoned from 00 to 23.

9. Operators are reminded that Article 45 of the International Service Regulations imposes the general obligation of not interfering with reception of weather bulletins by other ships.

10. Certain other stations not shown in the schedule supply weather bulletins *on demand*, generally at reduced charges. Particulars will be found in the Berne List.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR JULY 1920.

1. **Character of the season.**—During the month the rainfall was above the average in eleven districts and elsewhere below normal. The fall was in marked defect in Mymensingh, Chittagong Hill Tracts, Cooch Behar and in the North Bengal districts. The usual rainfall statement is appended.

2. **Progress of agricultural operations.**—Harvesting of jute and autumn paddy was in progress in the northern and eastern districts, but some difficulty was felt in parts of North Bengal in the steeping of jute, due to lowness of river floods. Transplantation of winter paddy seedlings continued; but the progress was retarded in the early part of the month owing to want of adequate rainfall. Towards the end good rain facilitated operations. Transplanting, so far, is somewhat behind hand.

3. **State of standing crops.**—The condition of jute was fair and that of autumn paddy, sugarcane and other standing crops was generally satisfactory.

4. **Prospects and probable outturn.**—A satisfactory outturn of autumn paddy is anticipated. The present outlook of deep-water paddy in Eastern Bengal is generally reported hopeful. More rain is needed for improving the prospects of transplanted paddy.

5. **Damage to standing crops.**—Slight damage by disease and pests was reported to have been caused to the jute crop in parts of Nadia, Murshidabad, Jessore, Pabna, Faridpur and Bakarganj. The standing crops in the Tamluk subdivision of the Midnapore district have also been damaged by floods. Extent of damage has not yet been reported.

6. **Condition of agricultural stock.**—Stray cases of cattle-disease were reported from fifteen districts of the province.

7. **Failure of pasturage and fodder.**—The supply of fodder was reported to be generally sufficient throughout the province.

8. **Prices of food-grains.**—During the second fortnight of the month under review, the price of common rice of the cheapest quality rose in eleven districts, fell in seven and remained stationary in the rest of the province. It ranged from 3 seers 12 chittacks per rupee at the Chittagong Hill Tracts to 5 seers 11 chittacks a rupee at Tippera.

9. **Condition of agricultural people.**—The condition of the agricultural population was satisfactory.

Director of Agriculture, Bengal.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 19th August 1920.

Summary.—During the week rainfall was unevenly distributed, the fall being heavy over the greater part of Northern Bengal and in Mymensingh district and generally light to moderate elsewhere. The recent rainfall has facilitated field operations, especially in North Bengal, and has improved the prospects of standing crops generally. Harvesting of autumn paddy and jute is well advanced in Eastern Bengal. Damage to jute and paddy by floods continues to be reported from Midnapore and to jute by insects from Nadia, Murshidabad, Jessore and Pabna. The average price of common rice for the Province has fallen by about 0·26 per cent. as compared with that of the previous week.

And whereas the said Government of Bengal has required the Society under the provisions of section 41 of the abovementioned Act to enter into the agreement with the Secretary of State hereinafter contained.

Now this Indenture witnesseth that it is hereby agreed and declared as follows:—

(1) On demand the Society shall and will pay to the said Government of Bengal all and every compensation in respect of the said land tendered, paid or awarded or to be tendered, paid or awarded by the Collector under the Land Acquisition Act, 1894, or by the Court to which

(5) The said Hospital shall be completed (and fully equipped in all respects ready for use) within two years from the date on which possession of the said land shall have been given to the Society.

(6) Should the said Hospital not be completed (and fully equipped in all respects ready for use) within the period stated in the last preceding clause or within such further period as in its discretion may be prescribed or allowed by the said Government of Bengal, or should the said land at any time thereafter cease for a period of twelve consecutive months to be held and used or cease to be required for the purpose or purposes provided for in the foregoing fourth clause, then and in any such case the said Government may summarily re-enter upon and take possession of the said land and therupon the interest of the Society in the said land shall absolutely cease and determine.

(7) On taking such possession the said Government may sell or otherwise deal with the said land as it may think proper. Should the said Government sell the said land the said Government after deducting the expenses incurred in connection with the said taking of possession and with such sale shall pay the proceeds to the Society. Should the said Government on taking possession decide not to sell the land it shall repay to the Society all sums received from the Society in respect of all and every compensation as provided in the foregoing first clause (less the statutory allowance of 15 per cent.), but will not repay any sums paid and received on account of costs charges and expenses.

	1,500	250	1,750

(2) The Overseas allowance set out in column 3 above (which will reckon as pay for all purposes of the Civil Service Regulations) will ordinarily be granted only to officers of non-Indian domicile; but, as an exception to this general rule, all Indian officers now in the Indian Agricultural Service on the full scale of pay will be regarded as eligible for the allowance.

(3) Officers who have been promoted from the Provincial to the Imperial Service on the provisional scale of Rs. 350—35—700 will, for the purpose of drawing future pay, be treated as having been appointed to the Imperial Service on the date on which they were provisionally appointed, but will not draw the overseas allowance. Provincial Service Officers so promoted in future will, on promotion, enter the Imperial Service on a pay at the nearest multiple of Rs. 50 above the pay that they are drawing at the time of

promotion and will thereafter receive increments on the ordinary scale. They will rank for seniority immediately below other officers already in the Imperial Service drawing the same rate of pay.

(4) Free quarters will not be provided.

(5) The selection grade will not be regarded merely as a continuation of the time-scale, but promotion to it will be given as the reward of merit. An officer will be eligible for promotion to the selection grade after having completed 15 years' service. The selection grade will at the outset consist of 15 per cent. of the present sanctioned strength of the service after deducting posts directly under the Government of India, and the number of selection posts to be allotted to each province will be fixed by the Government of India. This allotment will be communicated in due course to local Governments and Administrations who will have complete discretion in making appointments to the selection posts allotted to them. The principles upon which additions will be made to the number of selection posts as the sanctioned strength of the service increases will be determined later.

(6) The appointment of Agricultural Adviser to the Government of India when held by an officer of the Indian Agricultural Service will carry a fixed salary of Rs. 2,750 a month with a rent free house at Pusa. Officers originally recruited to the Agricultural Department on special terms will be regarded as eligible, equally with regular members of the Indian Agricultural Service, for appointment as Agricultural Adviser.

(7) Directors of Agriculture selected from the staff of the Department will in all provinces employing a whole-time Director be placed on a uniform scale of Rs. 2,000—50—2,250. The scale of salary admissible to Directors in other provinces will be considered when the appointment of whole-time officers of the Indian Agricultural Service to these posts is found necessary. Officers originally recruited to the Agricultural Department on special terms will be eligible, equally with regular members of the Indian Agricultural Service, for appointment as Directors of Agriculture.

(8) Principals of Agricultural Colleges will receive an allowance of Rs. 150 a month in addition to their pay under the time-scale.

(9) Officers of the Indian Agricultural Service who hold the posts of Heads of Sections at Pusa, as classified below, or hold other permanently sanctioned posts in those sections will be eligible for special duty allowances, provided that they have completed not less than three years' service or are in receipt of a salary not less than that of an officer in his fourth year of service under the time-scale. Supernumerary officers and the Assistant to the Agricultural Adviser will not be eligible for these allowances. Heads of Sections will draw allowances on the scale of Rs. 200—50—400, but the first increment in this scale will not be admissible before an officer has completed 15 years' service.

For the present the following posts at Pusa will be regarded as Headships of Sections:—

(1) The Imperial Mycologist,
(2) The Imperial Economic Botanist,
(3) The Imperial Agricultural Chemist,
(4) The Imperial Agriculturist,
(5) The Imperial Agricultural Bacteriologist, and
(6) The Imperial Entomologist.

Additions may be made by the Government of India to this list.

The allowances for which officers holding permanent sanctioned posts at Pusa other than Headships in these Sections will be eligible will be at the fixed rate of Rs. 150 per mensem. An officer in receipt of one of these allowances will, on appointment to officiate as Head of a Section, be eligible for the higher allowance of Rs. 200 per mensem in lieu of the allowance of Rs. 150 per mensem. The grant of the allowances mentioned in this sub-paragraph is in each case conditional on approved service. The present graded scale of Pusa allowances is abolished.

(10) Officers of the Indian Agricultural Service, however recruited, will, when serving in Burma, be eligible for a local (Burma) allowance at the normal rates according to salary.

2. Except to the extent mentioned in sub-paragraphs (6) and (7) of the foregoing paragraph, the orders set out above will not apply to officers originally recruited to the Agricultural Department on special terms and who are not borne on the regular cadre of the Indian Agricultural Service. Such officers will continue to serve on the special terms sanctioned in each case.

3. The pay of officers who were members of the Indian Agricultural Service prior to the 1st December 1919 will be regulated according to the following principles. The general rule will be that as from the 1st December 1919 they will receive pay in the new scale according to the length of their total service calculated from the date of commencement of such service. Officers who were originally appointed to the service on an initial pay of more than Rs. 500 will, however, enter the new time-scale on the 1st December 1919 on the pay which they were actually drawing on that date and will draw their next increment after completion of one year on that pay and subsequent increments after each completed year. The incremental scale above Rs. 1,000 (pay and overseas allowance) will, in the case of any officer electing for this concession, be considered to have come into force from the date on which he completed a full year on the pay of Rs. 1,000 a month on the old scale. Article 158 of the Civil Service Regulations will not be held to apply.

4. Revised rules for appointment to the Indian Agricultural Service will issue shortly.

II.—PROVINCIAL AGRICULTURAL SERVICE.

In all provinces other than Burma the minimum pay of an officer in the Provincial Agricultural Service will be Rs. 250 and the maximum Rs. 750, with a probationary rate of Rs. 200 and an efficiency bar at Rs. 550. In Burma the minimum pay will be Rs. 300 and the maximum Rs. 800, with a probationary rate of Rs. 250 and an efficiency bar at Rs. 600. Within these limits each local Government and Administration will have full discretion to settle the grading of posts in its Agricultural Department. Local Governments and Administrations have also full discretion to fix, either generally or in special cases, the length of the period to be spent on probation.

1. In these rules, "Act" means the Bengal Food Adulteration Act, 1919.

2. In respect of the articles of food named below, of which the normal constituents have been declared under section 4 of the Act, the deficiencies in their constituents or additions of extraneous matter or proportions of water mentioned against each article of food shall, for the purposes of the Act, raise a presumption, until the contrary is proved, that the particular article of food is not genuine or is injurious to health.

(1) *Milk.*

(*a*) Where a sample of cow's milk contains less than 3·5 per cent. of milk fat, it shall be presumed, until the contrary is proved, for the purposes of the Act, that the milk is not genuine, by reason of the abstraction therefrom of milk fat or the addition thereto of water.

(*b*) Where a sample of buffalo milk contains less than 6 per cent. of milk fat, it shall be presumed, until the contrary is proved, for the purposes of the Act, that the milk is not genuine, by reason of the abstraction therefrom of milk fat or the addition thereto of water.

(*d*) Where a sample of buffalo milk contains less than 9 per cent. of milk solids other than milk fat, it shall be presumed, until the contrary is proved, for the purposes of the Act, that the milk is not genuine, by reason of the abstraction therefrom of milk solids other than fat or the addition thereto of water.

(2) *Butter.*

Where the proportion of water in a sample of butter (not being sold and labelled as Ghatal butter) exceeds 16 per cent., it shall be presumed, until the contrary is proved, for the purposes of the Act, that the butter is not genuine, by reason of the excessive amount of water therein.

(3) *Wheat flour.*

(*a*) Where the proportion of ash in a sample of wheat-flour exceeds 2 per cent., it shall be presumed, until the contrary is proved, for the purposes of the Act, that the wheat flour is not genuine by reason of the excessive amount of extraneous mineral matter therein.

(*b*) Where the proportion of gluten in a sample of wheat flour contains less than 8 per cent of gluten, it shall be presumed, until the contrary is proved, for the purposes of the Act, that the wheat flour is not genuine, by reason of the deficiency of gluten therein.

(4) *Ghee.*

(*a*) Where in any sample of ghee the butyro refractometer reading at 40°C is less than 40 or more than 42, it shall be presumed, until the contrary is proved, for the purposes of the Act, that the ghee is not genuine, by reason of the addition thereto of extraneous fat or oil.

(*b*) Where in a sample of cow ghee, the Reichert-Wollney value is less than 24, it shall be presumed, until the contrary is proved, for the purposes of the Act, that the ghee is not genuine, by reason of the addition thereto of extraneous fat or oil.

(*c*) Where in a sample of buffalo ghee, the Reichert-Wollney value is less than 30, it shall be presumed, until the contrary is proved, for the purposes of the Act, that the ghee is not genuine, by reason of the addition thereto of extraneous fat or oil.

(*d*) Where in a sample of mixed cow and buffalo ghee, the Reichert-Wollney value is less than 28, it shall be presumed, until the contrary is proved, for the purposes of the Act, that the ghee is not genuine, by reason of the addition thereto of extraneous fat or oil.

(5) *Mustard oil.*

(*a*) Where in a sample of mustard oil, the saponification value is less than 169 or more than 176, it shall be presumed, until the contrary is proved, for the purposes of the Act, that the mustard oil is not genuine by reason of the addition thereto of extraneous oil.

(*b*) Where in a sample of mustard oil, the iodine value is less than 96 or more than 108, it shall be presumed, until the contrary is proved, for the purposes of the Act, that the mustard oil is not genuine by reason of the addition thereto of extraneous oil.

3. (*a*) Milk stated to be cow's milk, whether sold, exposed for sale or stored for sale, shall contain not less than 3·5 per cent. of fat and not less than 8·5 per cent. of non-fatty solids.

(*b*) Milk stated to be buffalo milk, whether sold, exposed for sale or stored for sale, shall contain not less than 6 per cent. of fat and not less than 9 per cent. of non-fatty solids.

4. Butter (other than that labelled and sold as Ghatal butter), whether sold, exposed for sale or stored for sale, shall not contain more than 16 per cent. of water.

5. The Health Officer or, where there is no Health Officer, the Sanitary Inspector, in the employ of the municipality, shall perform the duties and exercise the powers mentioned in section 10 or section 12 of the Act.

6. The fee to be charged by a public analyst for analysing articles of food under this Act shall be Rs. 2 per sample if sent by a local authority, Rs. 4 per sample if sent by any other person.

7. The price of the food surrendered under sub-section (*2*) of section 10 of the Act shall be payable from the fund of the local authority within whose jurisdiction the surrender is made.

8. The compensation awarded under sub-section (*3*) of section 13 of the Act shall be payable from the fund of the local authority within whose jurisdiction the seizure of the suspected article or articles was made.

WIRELESS METEOROLOGICAL INFORMATION TO AND FROM SHIPS AT SEA.

General Remarks.

No. 221 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1000 of 1920), are republished:—

Former Notice—No. 703 of 1920 (This Office No. 156 of 1920); hereby cancelled.

1. It is earnestly hoped that all concerned will assist in making the wireless meteorological service a success. Negotiations are now in hand to extend and unify the system of collecting weather data by wireless from ships at sea all over the world, and at the same time to organise the free transmission of weather bulletins from a sufficient number of wireless stations to admit of ships being constantly supplied with reliable weather reports and forecasts wherever they may be.

2. It should be borne in mind that the needs of ships at sea in regard to information regarding the weather will march hand in hand with the requirements of aircraft. The importance of this service will therefore be constantly increasing, and its success or failure will largely depend upon the co-operation of ships at sea in providing the data without which accurate forecasting is impossible. The matter does not depend solely upon the efforts of the ships selected to furnish the data. The essence of success lies in rapidity in passing such data by wireless from the ship to the coast station, and thence to the central meteorological office. It follows, therefore, that all ships not taking an active part in supplying data should use the greatest care not to interfere with the transmission of the wireless messages to the shore.

3. The following particulars refer to the scheme now being undertaken by the British Meteorological Office. This Notice will, however, be subject to revision from time to time, and endeavours will be made to include in each revision all information available to date of the weather bulletins issued by the wireless stations of the world. Earnest endeavours are being made to obtain international agreement as to the form of these weather bulletins and to the methods and times of transmission. It is hoped that the messages will eventually all be made in an international code at fixed times, so arranged that a ship with only one wireless operator will be able to read them. A similar scheme for time signals is being evolved.

Collection of Weather Data from Ships.

4. Certain ships are being asked to supply data regularly three times a day and in addition to the regular observations, which are taken at 0100, 0700 and 1300 Greenwich time and sent as soon as possible to Malin head (GMH) or Valentia (GCK) coast stations, these ships may, on request from either of these coast stations, send special data messages at other times.

5. Precise instructions as to the procedure for ships which intend to send a data message, together with the necessary code, will be issued at an early date.

Issue of Weather Bulletins to Ships.

6. A wireless *weather bulletin* may contain both or either of the following:—

(*a*) A *weather report*, which is an official statement of existing weather conditions; and/or

(*b*) A *weather forecast*, which is an official opinion of probable future weather conditions.

7. The accompanying schedule of wireless weather bulletins is intended to provide, in a form suitable to give all information required by the wireless operator, a complete and up-to-date list of all weather bulletins transmitted at fixed times by wireless stations throughout the world. The

same information will be found in detail in the Sailing Directions and in the International List of Radiotelegraph Stations (the Berne List).

8. The times given in the third column of the schedule are expressed in the 4-figure notation employed for signalling during the war. The term "G.M.T." here means the civil mean time of the meridian of Greenwich, with the day commencing at midnight and the hours reckoned from 00 to 23.

9. Operators are reminded that Article 45 of the International Service Regulations imposes the general obligation of not interfering with reception of weather bulletins by other ships.

10. Certain other stations not shown in the schedule supply weather bulletins *on demand*, generally at reduced charges. Particulars will be found in the Berne List.
